

The Key To Time.

All nature is build upon numerical relations that harmonically interacting and are mathematically perfect.

An Age of Brahma or Mahakalpa 311,040,000,000.000 human years. That is, the Life of the universe from the big bang to the big crunch is 31,104,000,000,000 human years.

The day or active cycle of Brahma is 4,320,000,000 human years long.

The night cycle or inactive cycle is 4,320,000,000 human years long.

When the day cycle end we have sunset. When the night cycle end we have sunrise.

Twilight cycles or “sunrise” and “sunfall” are 98,000 years each.

The whole cycle from “big bang” to “big crunch” is divided into 7 globes or earth cycles.

Our solar system from beginning to end is also divided into 7 sub cycles for each globe.

The 7 globes are called globe A, globe B, globe C, globe D, globe E, globe F & globe G.

There is a total of 49 globes from the beginning of the universe till it's end.

We are currently at the half way or mid point in globe G.

There are many, many major and minor cycles of time. Some small cycle of time are 1, 3.5 & 7 years.

A few big cycles of time are: 700 years, 144,000 years and 4,320,000,000 trillion years long.

Globe D has a life cycle of 4,320,000,000 trillion years.

This includes twilight cycles of sunrise and sunfall for all major and minor cycles of time.

The many globe cycles with their sub-cycles of sunrise and sunfall is called “A DAY OF BRAHMA”

A day of Brahma is 4,320,000,000 trillion years long from beginning to end.

Each globe has 7 major “sub cycles”.

Each globe “sub cycles” has 7 more “sub-sub cycles”.

Each of the “sub-sub cycles” have 7 more “sub-sub-sub cycles” and so on until you come to the extremely small time cycles of 1, 3.5 & 7 years.

Some examples of major planetary of time:

1.)432,000,000,000 from globe A to globe G.

2.)1,000,000 years since the birth of Aryan Race

2.)**Each** of the 7 Aryan **Root Race** is about **9 Million Years**

3.)A **Family** cycle is about **30,000 years**.

4.)A **Tribe cycle** is about **2,915 years, 45 days, 17 hours**.

Examples of minor human life cycles of time: cycles

5.)1, 3, 7, 21, 28, 35, 42, 49, 56, 63, 70, 77, 91, 98, and 105 years.

When ever a major or minor cycle hook up with other major or minor cycles then great events happen on earth or the universe.

About one million years ago The Atlantis Root Race gave birth to the Aryan Root Race in Asia.

"he who is brave and persevering (determined) enough, ready to crush the animal (sub conscious) in himself, and, forgetting the human self (personality), sacrifices it to his ego (soul), can always find his way to become initiated into these mysteries." see- "*The Babel of Modern Thought*". Lucifer, vol 7, 1891 Pages 442-443. H.P.B.

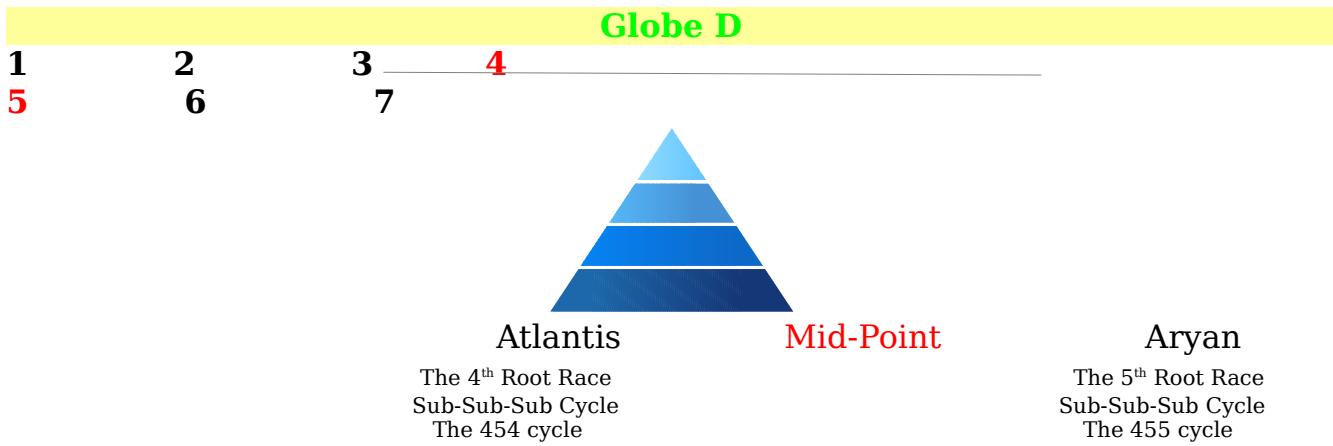

After our solar system has ended a new sun and earth will form to take its' place to begin a new planetary chain.

It takes 308,448,000 human years of time to travel from Globe **A** to the **mid-point of globe D**. It takes 308,448,000 human years of time to travel from Globe **D** to the **mid-point of globe G**.

The total length of time from the start of Globe **A** to the end of globe **G** is 616,896,000 human years.

Then the inactive planetary chain starts and the solar system sleeps for 616,896,000 human years.

*Note Well: Repetitive analogies in nature is the master key in making computations of all these time cycles. During our solar system journey from point **A** to point **G** our earth year will last from from **354** days @ Globe **A**. Then at the mid-point of globe **D** it will reach **365.4** days. After the mid-point during globe **D** has been reached, days will slowly decline until it reaches **354** days again at the end of globe **G**. That is, earth days cycles change over time.*

Overlaps.

There are overlaps between the Mid-Point of the closing cycle and the beginning of the new cycle.

Note Well: Master DK says *"Cataclysms of a worldwide nature will occur during the next 1000 years (as of 2000 AD); continents will be shaken; lands will be raised and submerged, culminating in the profound material disaster which will overtake the world towards the close of the 4th branch of the sixth sub-race"* or 454.6 (**454.6** to **455.1**) Keep in mind the 454.7 to the 455.1 cycle is around a 1000 years long. There is an overlaps between **454.6** and **454.7**. That is the Mid-Point of the closing 454.6 cycle and the beginning of the new 454.7 cycle. All cycles of human time are subject to these overlaps

Cycle Rules

- 1.) Extinct animals return to earth at each new root-race cycle.
- 2.) Extinct human forms return to earth at a new root-race cycle.
- 3.) Extinct languages return to earth at a new root-race cycle.
- 4.) The metonic cycle of earth's moon is 19 years. That is when the new and full moons returns on the same days of the month.
- 5.) The earth's revolution around the milky way galaxy takes 25,868 solar years. When earth reaches the halfway or mid-point which is about 9,868 solar years violent convulsions will force the distribution of nations. That is, when earth reaches this "astrological opposition" all hell breaks lose.
- 6.) History events come and go in cycles. (*see the Hegelian notion of the dialectic as a force of history.*)
- 7.) Earth has a steady rate of vibration from the beginning to the end for Globe D
- 8.) All Race cataclysms occur in cycles. The order is either by either fire or water depending the time line.
- 9.) Souls reincarnate in wave cycles.
- 10.) When great cycles intersect, a pole shift or great convulsions occurs.
- 11.) By way of mass consciousness the positive or negative thoughts of mankind become a power source for the forces of nature.
- 12.) Great cataclysms occur at the beginning and ending of major cycles for civilizations either by fire or water.
- 13.) Reincarnation is governed by the rule of cycles.
- 14.) As human consciousness becomes more evolved so does the matter that surrounds him on earth.
- 15.) There are 4 types of cataclysms cycles: Earthquakes, Floods, Fire and Ice.

16.)Theosophy is the current name for the ancient wisdom-religion which has appeared and reappeared at cyclic periods all down the ages.

17.)When the many Root-races has run their courses they are destroyed alternately by fire and water. Not suddenly, but slowly, stretching over hundreds of thousands of years, the work of destruction proceeds.

18.)Each of the 7 Root-races evolves a new sense to go along with the new element of matter, and mankind physiologically adapts to this new element by evolving a new sense as a result.

Globe D Root-Races Recognition Con't

There are 7 root-races which each lasting about 7 million years long. Each root race is divided further into 7 **Sub-sub Root** or **Tree-races (2nd generation)**. These in turn get further divided into **Sub-sub-sub races** or **Family Roots (3rd Generation)**. The Family races get divided further into **Sub-sub-sub-sub races** or **National Roots (4th Generation)**. The National Root-races get divided into **Sub-sub-sub-sub-sub races** of **Tribe Roots(5th Generation)**.

Globe D. 1st Root Race.

All 7 planets conjunct in the 1 degree of Pisces durning the **Carboniferous/Pennsylvanian** or **320,000,000 BC**. The birth of free will. The 1st root race was sexless and mindless. Instead of dieing the 1st root race disappeared into the 2nd root race without begetting, procreating or dieing. It was a wholesale transformation of the 1st into the 2nd. Around **150,000,000 BC** of the **Jurassic** the appearance of mind began. Also these proto-humans had ethereal bodies that were androgynous. They gave birth by dividing in half like cells do. At this point the 7 senses were as one spiritual perception.

Globe D. 2nd Root Race.

Little Information. Theosophical text state that this cycle produced offspring from the sweat of their bodies. They refer to them as the sweat-born races.

Globe D. 3rd Root Race. The Lemurians

About **65 to 54** Million Years Ago (*Paleocene Age*) the Lemurians began their cycle. It was in the 3.1 cycle that their Astral body began to become a solid physical body. This batch of humans live on the sacred island in central Asia north of the Himalayan in mid-Asia. This early 3rd root race could live in fire, water and wind. During Paleocene most of the main island had sunk in the pacific ocean by **5.6** sub-sub cycle. In theosophical text they are called the "*sons of the fire mist*". About the **3.4 to 3.5** sub-sub-cycles, during the *Miocene age*, the Lemurians reincarnated into solid physical bodies. This occurred from **13,000,000 to 7,360,000** Million Years Ago. These **One Eyed Solid Physical Giant Cyclops** arose around **18,618,000** Million Years Ago. My best guest is that they ranged between 150 feet to 75 feet tall. The solid physical Cyclops 3rd eye had open during the **(3.4)** or **18,618,000** Million Years Ago. This lasted until **5** Million Years Ago when their 3rd eye had closed **(3.4 to 3.5 cycle)**. At that point the cyclops reverted back to only two eyes and began a slow process of losing height and psychic abilities over time. The separation of the sexes also had occurred during this cycle of time. That is, the sexes (male & female) began to

separated between **13 to 5** Million Years Ago. Also, during the Miocene (**3.5**) or **7,360,000** Million Years Ago, mankind's ancestor split into two groups. The Dark Titans or (3 eyed humans) and a side off shoot we now call the "apes". Theosophical texts hold that the apes devolved from the 2 eyed giant races. The difference between them is that the 3 eyed Titans had the power of divine thought and the apes did not. That is, the Dark Titans had the power of abstract scientific thought and the ape did not. They lacked the spark of consciousness. Finally, it was during the **5.6** sub-sub-cycles that the Lemurians build the rock cities of stone and lava that can be had around the world. Please keep in mind that *H.P. Blavatsky* considers the birth of *humans* to have begun with the transition from Astral to solid physical bodies about 18,000,000 Million Years Ago. Also keep in mind that these are ruff estimates due to fact that when one group reaches its zenith and starts to decline, another group is born and starts to rise. Also, during these overlaps member from different races breed with one another.

The Lemurians 1st Sub-sub-cycle Tree-races (2nd generation) of Globe D

The perfected spiritual beings from Globe C began testing and experimenting with different ethereal body types. This was before they decided on the ethereal bi-pedal plan. They are know in theosophical texts as the "Chhaya Race" which mean "An Pre-Astral Image" or blueprint for the etheric body. These pre-etheric ape like forms were "Water-Men" who grew out of the superabundant energy of the Precambrian time. Their continent was in the region of our current north pole and is called in theosophy "the imperishable sacred land". These water-men were bone-less and almost formless. They did not die but rather they disappeared into the 2nd Sub-sub-cycle race by a process called "Budding". It was during this period that the work of forming the human body, as we know it, was seriously undertaken. These water-men of the 1st Sub-sub-cycle were terrible and bad. They were destroyed by the perfected spiritual beings from Globe C to make way for our etheric bi-pedal body type.

The Lemurians the 2nd Sub-sub-cycle Tree-races (3rd generation) of Globe D

The race that replaced the water-men are called the "Sweat-Born Race". Not much is known except that their home was in Greenland. It is said that large drops oozed from their bodies and then developed into human embryos. In the occult texts that I have read they say that they were "Dreaming creatures to whom a 1000 years was but a day" and that no evidence of their existent is found. Their life cycles were spent in the oceans.

The Lemurians 3rd Sub-sub-cycle Tree-races (4rd generation) of Globe D

From the **3.1** Sub-sub-cycle through to the Mid-point of the **3.4 cycle** The Lemurians moved from the oceans to the land. Their Sweat-Born drops were human embryos that once on land developed into huge eggs. These huge eggs in turn were warmed and matured by the sun. It was during this transition that our ethereal bodies became solid physical. Also, this transition was a "*hermaphrodite*" period. It was in this hermaphrodite period that the physical and spiritual joined under the newly formed human mind or consciousness.

There were many types of of 4 armed 3 eyed beings that arose during this cycle. Both in ethereal and solid physical bodies. It was the perfected spiritual beings from **Globe C** who created this newly formed human mind or consciousness. It was done so as to allow the physical and spiritual to unite in these slowly developing hermaphrodite bodies. This union is symbolized by the *Prometheus myth*. In the bible it is symbolized by *Lucifer* masquerading as *Satan* the evil force. Some time after the **3.4** mid-point had been reached both humans and animals went through a long transition period of separating into male and female human beings. This was before the rise of the “*species barrier*”. The ancient world wide legends of mythical races and animals is the result of these marriages. It led to the human offshoot of the Simian races. Man did not descend from monkeys, rather monkeys descended from animal and human matings. On the other hand, some of the perfected spiritual beings from **Globe C** took humans to breed with so as to produce the Lemurian leaders and instructors prior, during and after the rise of the “*species barrier*”. They did this in two ways: by physically mating or by the use of their will power to inhabit a human embryo. There was also a cycle of cyclops which as best as I can tell started out as *one-eyed* then became *three-eyed* and ended with *two eyes*. The one-eyed cyclopes cycle ran from *(3.1 through to 3.3)*. The Three-eyed cyclopes ran from *(3.4 through to 3.5)*. And the Two-eyed cyclopes ran from *(3.5 through to 3.7)*. The location of Lemuria stretched from the two Americas to the shores of Asia in the pacific ocean. Thus the dreamy half conscious animal was transformed into a clear headed fully awaken human being during the Mid-point of the **3.4 cycle**. And their incestuous lust between man and animal led to the simian races. Moreover, the incestuous lust between animal species led to the mythical creatures of world wide legends. It would not be until the mid-point of the 4th root race of the Atlanteans that the species barrier come into full effect and prevent “*cross species breeding*”. Between the final Lemurian physical evolution and the first Lemurian city built many hundred thousands of years passed. In the 6th root-race of the Lemurian cycle the first rock cities were build of stone and lava. One of these cyclopean buildings, made of lava, was built about 30 miles west of Easter island.

Globe D The 4th Root Race. The Atlanteans

The Atlanteans emerge from the Lemurians when their zenith was reach and their decline began. They were at 27 feet tall and their bodies were much more dense that modern humans. The Atlantean cycle began 54,000,000 Million Years Ago during the **Eocene** and reached its zenith about **33,700,000** Million Years Ago. That is, from the **4.1** sub-sub cycle through to the **4.7** sub-sub-cycle, around **54,000,000** Million Years Ago all the senses were one. But as each sub-sub-cycle began and sense would become independent from this one sense. That is during the **4.1** speech and sight were one sense. During the **4.2** touch become independent. During the **4.3** hearing become independent. During the **4.4** smell became independent. Finally at 4.5 sight and hearing became separate senses. Moreover, as best as I can tell, the **Mid-point** between **4.4** and **4.5** occurred during the **Miocene** around **7,360,000 BC**. Again at this point another group of Apes branched off from the giant Atlanteans around this time. It was the Lemurian called the “**Horlet**” the dweller on the Atlantean island **Unal** who

remain behind for untold millions of years who trained the 4th root race adapts in the occult sciences and arts. I may be wrong but it was Horlet who personally trained the **“Hermes Trismegistus”** in the main temple on the Island of Undal. He taught him who to extend his life cycle for many millions of years. At the beginning of the 4th root there were 4 islands in the Atlantic that I have been able to I.D. They are the largest island called **“Ruta”** or the white island, followed by a decreasingly smaller island chain called **“Daitya” 270,000 BC, “Unal” No Date? and “Poseidon” 11,000 BC.** During the overlap between Lemurian and Atlantean civilizations many wars broke out between the 3rd and 4th adapts. Atlantis went from one island to 4 island over time. As far as I can tell **Ruta**, after millions of years of gradual submerging completely sank around 850,000 BC. Some of its remains can be had in the the islands of *Madagascar, Ceylon, Java, Borno* and the main islands of *Polynesia*.
